

**O LÀ LÀ! INTERIORS  
(BALLITO)**

Schanè Anderson, Founder/Owner

**What makes your company one of the best in the business?**

Besides the fact that we are an approachable, talented, reliable, dedicated and friendly team of creative fairy godmothers with 20 years of good standing behind us? Must be our superior service and quality delivery, on time, every time. Our mission is to personalise every breathing space and reflect the owner's loves, travels, collections, tastes and styles.

**Tell us about the most exciting projects you're working on.**

The Grange Guest House in Durban North, as well as numerous high-end residential projects on the North Coast. We are currently working on a 28-bed, five-star private boutique hotel on the South Coast.

**Explain briefly your company's approach to delivering interior design solutions.**

We only work with (warm, wonderful and lovely) people we like (seriously) and concentrate on giving them the solution, look and ambience they want. We love Proudly South African mixed with earthy and international flavour, and have designed and installed successfully across borders, cultures, genres and budgets. Successful execution requires hands-on project management - which we also happen to be really good at! We are also a proud Corporate Member of the Institute of Interior Design Professions (IID).

*o là là!*
